Lake Road Shore Improvement.

Haven't said much about it recently. It's getting an old thing. A year old this month. The bushes have been cut and trees trimmed. Every one who speaks of it says it looks better.

This week a physician of this village hands us a dollar as his contribution and requests us not to mention his name in the paper. He wants the road-side improvement kept up. This we'll try to do.

If you have suggestions to offer make them to F. W. Sanborn, Wm. C. Leavitt or Frank H. Noyes and they will be carefully considered.

Contributions to the fund will be acknowledged in this paper. Can't you give a dollar?

We don't ask it of those who have already given.

The Referee Hearing.

The referee hearing which was held at the court house, Wednesday of last week, was a case entered at the last term of court and referred to Hon. James S. Wright of South Paris, Hon. A. P. Gordon of Fryeburg and Henry Nelson of Rumford Falls. Seth Walker of Bethel brought suit against the American Realty Company. The suit is to determine the title to some land, the real question being the boundary lines between Newry and Andover West Surplus. Mr. Walker owns five of the seven lots in the north tier of lots in Newry, the other two lots being owned by Mr. Kellogg, and although he is not a party to the suit the decision will determine the limits of his land.

Several surveyors were on the stand, the principal testimony being given by them. Judge A. E. Herrick represented the plaintiff and Hon. John P. Swasey the defense. Report will be made by the referees at the next term of court.

Although the suit is brought against the American Realty Company, it is found that the property really belongs to the Umbagog Paper Company. This was made in this way by some mistake and not discovered until recently. By agreement of the counsel the technical defect in bringing suit will not be allowed to interfere with the settlement.

Despite the cold and stormy weather things moved along well at the Congregational fair which was held last Thursday and Friday. The decorations were in keeping with Christmas time, being very simple yet pretty.

K. Baldwin.

Thursday evening music was furnished by an orchestra and Friday afternoon there was a baby show. About 35 babies were on exhibition at the show and seemed to enjoy it very much. Each boy was presented with a toy sled and each girl with a doll's chair. Friday evening there was a large number present to both supper and entertainment. The first part of the program was given by the Schubert Quartet and included two quartet selections, a solo by Mrs. Wilson, a duet by Mrs. Wilson and Mrs. Smiley, and a trio by Mrs. Wilson, Miss Thayer and Mrs. Smiley. All were heartily appreciated by the audience. The program concluded with the comedy Two of a Kind, which kept the audience in a roar throughout the piece.

REACH THE SPOT.

To cure an aching back,
The pains of rheumatism,
The tired-out feelings,
You must reach the spot—get at the cause.

In most cases 'tis the kidneys.

Doan's Kidney Pills are for the kidneys.

Charles Bierbach, stone contractor, living at 2625 Chestnut St., Erie, Pa., says: "For two years I had kidney trouble, and there was such a severe pain through my loins and limbs that I could not stoop or straighten up without great pain, had difficulty in getting about and was unable to rest at night, arising in the morning tired and worn out. The kidney secretions were irregular and deposited a heavy sediment. Doctors treated me for rheumatism, but failed to help me. I lost all confidence in medicine, but Doan's Kidney Pills, relieved me so quickly and so thoroughly that I gladly made a statement to that effect for publication. This was in 1898, and during the six years which have elapsed I have never known Doan's Kidney Pills to fail."

A FREE TRIAL of this great kidney medicine which cured Mr. Bierbach will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.

The Fashion.

Enslaved by our clothing,
And shackled by style,
With no thought of loathing.
The chains that defile!
The creature of Fashion
Bent low 'neath her load,
Falls into a passion,
Unless clad "a la mode."
Our fore-bears, the monkeys,
In clothes ready made,
Would blush for us flunkeys
In livery arrayed,
Of fashion's designing,
Each frivolous whim,
Which is worn unrepining
By those "in the swim."
For comfort and shelter
No longer we dress,
Common sense, helter skelter,
Is left in distress;
And modesty's flushes,
No longer "out ice,"
We heed not her blushes,
We call her too nice.
In full-dress arrayed
Nearly nude to the waist,
Unabashed, unafraid,
Unashamed, undisgraced, (?)
Fashion's daughters parade
To charm masculine eyes,
And no protest is made,
For it wouldn't be wise.
Or in bathing suit brief,
Darped about waist and hips
There are no signs of grief
Seen on feminine lips
As with li nbs in relief,
They so joyously skip
To the beach or the reef
For a sand bath or dip.
They would blush to appear
In a last winter's hat,
And a cloak of last year,
Faith, would tumble 'em flat,
Then where is the blame,
Since they know how to blush,
That they're lost to all shame
Of exposure? Oh hush.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Mrs. Hannah Lovejoy.

Mrs. Hannah Lovejoy died at the home of her brother, Parker Dresser, Monday, Nov. 26th, very suddenly of heart failure. Mrs. Lovejoy has been spending several months with her brother, Parker Dresser, who still lives on the place where they were both born and passed their childhood together. It seemed the will of Providence that the long and useful life should end in the same house where it began.

Mrs. Lovejoy leaves two daughters, Mrs. Clayton Churchill of West Paris and Mrs. Collins Libby of West Minot; two brothers, Parker Dresser of Albany and Jacob Dresser of Berlin, N. H., besides many other relatives and friends to mourn the loss of one who was honored by all who knew her.

The Original Porous Plaster.

It's Allcock's, first introduced to the people sixty years ago, and to-day undoubtedly has the largest sale of any external remedy—millions being sold annually throughout the whole civilized world. There have been imitations, to be sure, but never has there been one to even compare with Allcock's—the world's standard external remedy.

For a weak back, cold on the chest or any local pain, the result of taking cold or overstrain, there's nothing we know of to compare with this famous plaster

BETHEL.

More About the Fire.

Last Sunday night was a fearful time for Bethel village people when the fire bells rung vigorously at about 10.30. The people generally had retired for the night, and many so sound asleep that all the moving din failed to wake them. The firemen were soon out in sufficient numbers to put four streams on the burning building, which proved to be "Honest Corner" where C. P. Bean traded so many years but at present occupied by G. M. Forbush. Mr. Forbush was at Gorham, N. H., with his family, and the premises looked after by his clerk, F. E. Byrd, his brother-in-law. The Eastern Star also met in the same place. Fred Merrill, the lately installed S. W. of the lodge, as one of the firemen, went into a window and secured the charter and old records. Another brother succeeded in saving a few of the many pictures of the postmasters in a damaged condition. Mr. Randall carried his stock back into the store, which apartment still remained intact. At 3 o'clock the smoldering fire worked up to the roof of the low building, when a second alarm was rung and the firemen called out to their work again. The abundance of water soon stopped the fire, but Mr. Randall's stock was completely wet down. The Masonic furnishings were a total loss, insured for $1,000. The buildings are said to be well insured, and were owned by the late Moses T. Cross' heirs.

Herbert C. Rowe dislocated a finger by being caught in the shut-off of a hose nozzle, when on the top of a ladder in a position where he could not catch himself without the assistance of a brother fireman.

The Forbush store was over 60 years old and built by the late Gilman Chapman. It has been occupied at different times by many prominent men. The late Timothy Chapman, the Milwaukee millionaire, once occupied it, also Abner Davis, Benj. Freeman, Moses T. Cross, Gilman P. Bean and others. The store occupied by Young & Randall may be repaired.

Bethel Grants Use of Roads.

A well attended hearing was held before the board of selectmen in Odeon Hall, Bethel, Friday forenoon, upon the question of permitting the Rumford Falls and Bethel Electric Railroad Co. to lay its tracks in the limits of the highway in Bethel at certain points and in some of the streets in Bethel village. There was not a person opposed to granting the use of the highways.

Hon. Herbert M. Heath of Augusta, with others interested in an electric road from Rumford Falls to Bethel, met the inhabitants of Bethel in a special meeting last Friday forenoon at 10 o'clock, to confer on the proposed location of the road to come into the village at the overhead bridge on Church street, going from there to the depot, and up the entire length of Main street to the lower end of the common, or very near it, and returning the same. No objections were raised that were not satisfactorily explained away.

About 25 friends and neighbors of Lewis M. Mann passed the evening most pleasantly at his residence last Thursday. The occasion was an impromptu surprise party arranged by Mrs. Mann in honor of his birthday. Fortunately Mr. Mann was absent during the day and all the secret arrangements were successfully planned, the affair being a complete surprise to him. His first suspicions were aroused by accidentally discovering a box of candles reserved for the illumination later in the evening and noting the subdued excitement in the air. So when the first neighbor innocently "dropped in" for a call he retired with the remark that he "didn't know what was going on but he guessed he better change his coat." Mr. Mann received many congratulations and good wishes, and a social time was enjoyed by all. A program of vocal and instrumental music was rendered by those attending and just before going home the company united in singing several familiar pieces. Midway of the festivities while Mr. Mann was absent from the parlor, Mrs. Mann brought in and arranged the birthday cake which she had prepared. This was a large round frosted cake edged with candles, with Mr. Mann's initials in the center. This was put on the table and around the edge were placed 58 colored candles, which when lighted made a very pretty illumination. The cake was then cut and distributed among the guests, chocolate and fruit also being served.

WILLIAM FROST JONES,
Appointed Judge of the Norway Municipal Court.

William F. Jones has been appointed the next judge of the Norway Municipal Court. Mr. Jones is the third judge since the establishment of the court, his predecessors being Judge Chas. F. Whitman, and Judge Herrick C. Davis.

Educated in the best schools of America, the Boston Latin school and Harvard college, William F. Jones came to Norway after graduating at Harvard twelve years ago, to become a permanent citizen of this town, and entered upon the study of law in the office of Chas. E. Holt, Esq.

Since being admitted to practice law in the courts of the state at the May term of Oxford county court, 1898 he has had his law office in Ryerson block.

Mr. Jones is a Norway boy, of old Norway stock, though born in the city of Boston thirty-six years ago. Business kept the late Otis N. Jones, William's father, in Boston, but every summer saw the family back in the old home for the season. His grandfather, William Frost, his mother's father, was a resident of Norway and a merchant of sterling integrity and the promoter of our banking institutions. His mother, Katherine H. (Frost) Jones was a Norway girl and frequently visits Norway and is highly esteemed by the people of her native town. In 1897 he married Elinor F. Hunt of Bath, a fine scholar and successful teacher in the Norway High school.

He is deeply interested in all movements for the educational and moral improvement of our town and an attendant and liberal church supporter. He has been on the Norway school committee several years, and supervisor of schools two years, a trustee of the Norway public library, town agent and held other offices of trust.

He is also one of the Village Corporation assessors. At the recent organization of the Oxford College men's club he was elected vice president.

Judge Davis has been judge for twelve years and is over eighty years of age. Recently he has suffered much from ill health and he considered it advisable to retire from the office.

Special attention will be given to beginners and a class will be formed especially devoted to children to be held from 4.30 to 6 p. m. on the above date. Parents desirous of availing themselves of this opportunity should consult Mr. Stearns at once or call on Mr. Lewis at the opening.

Read the Waterville Morning Sentinel.

The Waterville Morning Sentinel believes that every intelligent man and woman in Maine is interested in the work of the Legislature. There is no doubt but that the best cure for bad legislation is publicity. The present unjust and partial tax system of Maine never would have been inaugurated, certainly never kept up, if all of the people had been familiar with it from the start. State expenditures never would have grown to their present figure if each additional office created, each salary raised, each piece of petty graft instituted had been made public. Some good legislation that has been proposed, which the ring and the lobby have prevented passing, would have gone into law if the people had been informed of what was going on.

If they are not informed of the doings of the next Legislature it will not be the fault of the Sentinel. It is going to give the fullest possible report of the doings of that body. It has arranged to be represented there by men who know Maine men and Maine politics and who, when they read a bill or a resolve, can read between the lines and see the spirit as well as the letter of the proposed legislation.

If you want to know what the Legislature is doing, day by day, as it does it, what it is asked to do and neglects or declines to do, if you want to know how the men you send there represent you and what part they take in affairs at Augusta, you want to read the Sentinel this winter for it will give you that information without bias or fear or favor.

In doing that work, it will not slight other matters. It will give you full news of the nation and the world through The Associated Press service and full news of the State through its special correspondents.

The subsciption price is $3.00 per year, $1.50 for six months. Published by the Sentinel Publishing Company, Waterville, Maine, to which company checks or money orders should be made payable in sending in subscriptions. 49 50

GILEAD.

The wedding of Annie N. Watson of Portland to Milan R. Bennett of Gilead was solemnized on Wednesday, Nov. 14, at high noon at the nome of the bride's sister, Mrs. John E. Richardson, of Gilead, Rev. Mr. McGruder of Portland officiating. Only near relatives were present.

At the reception the wedding gifts were shown. There were a large number. An ice cream set was presented by the employes of the Portland Co. of Portland, by whom Mrs. Bennett had been employed. During the reception a handsome chair was presented by the members of the Gilead Cornet Band. The occasion was a delightful and happy expression of hearty congratulations and good wishes to the young bride and groom.

Ezra A. Cole, whose sudden death occurred at his home in Port Huron, Mich., on Nov. 21, had for many years resided in that city but passed his early days in Oxford county. About thirty years ago Mr. Cole was united in marriage with Amie, daughter of Col. Parmenio and Mrs. Mary Ann (Burbank) Peabody of Gilead, and soon he made for himself a home in Michigan. For many years he held the position of road master on the Grand Trunk Railway, resigning on account of ill health. That appointment placed a long stretch of track under his control from Portland westward, and brought him into contact with many men.

Good Pigs and Sheep.

Frank Barker of Fryeburg Center killed two pigs six months old, weighing 535 pounds, each weighing 343 and 342 pounds; also sold from 24 sheep, wool and lambs to the amount of $201, and kept three fleeces for home use.

DO NOT BE A BURDEN.

Noyes Drug Store Gives Some Good Advice to Readers of the Advertiser.

Many people in Norway are a burden not only to themselves but to others because of indigestion and its resulting ailments.

The backaches, headaches, distress after eating, loss of appetite, gulping up of undigested food and gases, can all be overcome by the use of Mi-o-na stomach tablets.

This remedy is not a mere digestive, it is a positive strengthener of the digestive organs, putting them in shape so that they can digest any food that is eaten. Mi-o-na is used before meals and so strengthens the digestive organs, while other remedies are taken after meals simply to digest the food without giving permanent relief.

Noyes Drug Store sell Mi-o-na in 50c boxes under a positive guarantee that it will cure or money will be refunded.

Gasoline Engines

Buy that engine now, don't wait. These two engines I advertise are the very best engines that can be made for all farm purposes.

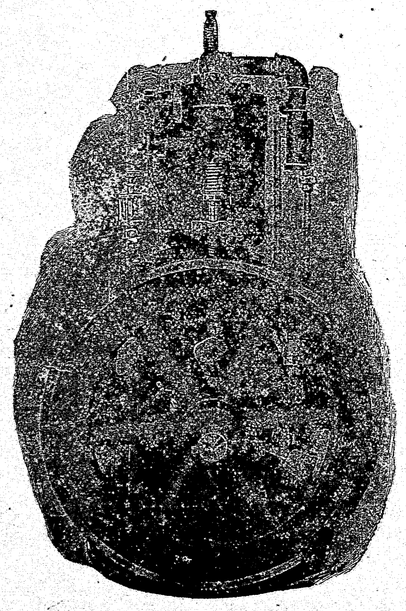

The Horizontal Engine known as the "Vermont".

Has certain features which are found upon no other engine. One of the most important of these is the cooling device. We do away with all pipes and connections on the "Vermont," the cooling tank being placed upon the cylinder directly over the valves, where a small amount of water can can be used.

The "Vermont" is built in sizes of from three to sixteen horse power and can be mounted upon trucks or saw rig as desired.

The Stoddard "Ideal"

Is a vertical engine built for all kinds of farm use, no other vertical engine has ever been put on the market that has stood the test that the Stoddard "Ideal" has.

Buy either of these engines and you will make no mistake.

Call at my store and talk engine with me, I am always glad to give any one all the points on engines I can.

For the next thirty days I shall sell at a very low figure.

Call and see me.

On account of the early snow the football practice came to an end. Quite a few games had been played and more scheduled but had to be cancelled much to the disgust of the members of the team. But as they could not control the weather, they soon ceased their murmurings and turned their attention to indoor sports until snow-shoeing and skating came to them

At the last meeting of the football team Walter J. Crandon was re-elected captain for the third time; also Perham Rowe was elected manager for the season of 1907.

Tuesday evening, Nov. 26, the young men gave a masquerade party in Academy hall. Prizes were awarded to the one having the best costume, Miss Fifield; the one having the most ridiculous costume, William Livingstone, and the one guessing the largest number of those masked, Hugh Hastings.

The late Alonzo F. Lewis of Fryeburg in a will made public, bequeathed the sum of $1,000 to Fryeburg Academy. The income of half this amount is to be used to pay the tuition of students coming from East Conway, N. H., Mr. Lewis' former home; the income of the remaining $500 is to be used at the discretion of the trustees.

A Lordly Visitor.

Sunday afternoon at about 3 p. m., As Mrs. W. C. Douglass was about finishing The dessert of chocolate puffs and whipped cream,
A noise by her was heard as of a carriage entering her lawn,
Immediately she arose to welcome her guest; Upon looking through the light of her door The sight which met her gaze was so magnificent,
Mrs. Douglass could but exclaim, oh come! The three were soon beholding one of the finest specimens
Of deer kind looking in upon the trio As though a friend he would find.
Full five minutes he stood about 84 feet away, Before he swept the fence upon his onward stray,
His antlers were larger than we ever saw before, These lines were brought before me, From the Word we keep in store.
"As the hart panteth after the water brooks, So panteth my heart after thee."

Wedding Reception.

A reception was given at the home of Benj. Ring, Saturday evening, Dec. 1, in honor of his son's Frank's marriage to Mrs Florence Walker of Deering. A large number of their friends and relatives were present although the evening was cold and blustering. Numerous presents were received among which was a case of table silver and other articles equally useful.

Playing games, selections on the phonograph, a good treat, and other amusements passed the evening too soon for the many people who wished Mr. and Mrs. Ring a happy and prosperous life.

Ross Coburn and family have moved into Will Emmons' house for the winter and Alton Cole and family will occupy a part of Perl Whitman's house.

The Patch Mountain school will give a box supper and entertainment at the school-house, Friday evening, Dec. 7.

Mr. and Mrs. H. R. Tuell of West Paris spent Thanksgiving with Mr. and Mrs. Jacob Curtis.

Hermon Emmons, who was threatened with pneumonia, is much better.

Carroll Bacon is running a dancing school at the City, consisting of about 15 couples.

Eugene Tyler is stopping at Calvin Cole's.

Mr. and Mrs. Millett of Paris and Alger Millett of Woodstock spent Thanksgiving with their parents, Mr. and Mrs. Sewell Millett.

Iva King has returned home from her visit to her brother Colby's of New Hampshire.

McClure's for 1907.

In the January number of McClure's will begin the Life of Mary Baker G. Eddy and the History of the Christian Science Movement. For the first time a complete, impartial and true story of Mrs. Eddy and Christian Science is to be had. It will run throughout the year. Georgine Milmine has written the story—for nearly three years she has pursued her study of the subjects. Five other writers of McClure's staff have worked with her to make this story accurate, fair, unbiased and complete. In view of the fact that for some months the press has been full of diverse and conflicting news and statements regarding Mrs. Eddy, it is evident that accurate knowledge concerning her is difficult to obtain in a short time. Consequently McClure's long and thorough preparation of its series will give us for the first time a true history and account of her and her cult.

Carl Schurz's Reminiscences of a long life will be continued. An indication of the timeliness of these reminiscences and the reawakened national interest in Carl Schurz to which they have contributed, are the great Carl Schurz Memorial Meetings held recently in the cities, and the Memorial Movement started which proposes to raise $25,000., and to erect a Carl Schurz Memorial as a tribute to his great service to the progress of our country.

William Allen White, Samuel Hopkins Adams, Burton J. Hendrick and George Kibbe Turner will also contribute to McClure's powerful articles on present day topics, conditions and men of national interest. These writers are big men and the work of each one aside from its literary achievement is a compelling, wholesome factor in the regeneration which these United States are now undergoing.

George Kennan, who won his spurs by his remarkable series on Siberia and Russia's Exile System, has been added to McClure's staff. The results of his recent investigations and work will appear at an early date.

Ellen Terry contributes an intimate history of the English drama of our day. This writing teems with anecdotes and incidents from the lives of great actors whom she knew intimately. From these droll, amusing and interesting happenings we can understand why these men and women of genius became loved and and famous.

For the story readers products of all McClure's fiction favorites will appear and a large number of writers who have "hit" recently. Such well-known names as Joseph Conrad, Mary Stewart Cutting, Perceval Gibbon, Viola Roseboro, O. Henry, Myra Kelly, Rex Beach, Mrs. Wilson Woodrow and Helen R. Martin give promise of as good stories of various sorts as any reader could wish.

Illustrators of note and merit will also contribute their share and add to the authors' productions and enhance the writings and stories by scores of pictures and illustrations in every issue.

The Heart Can't Stand Rheumatic Acid Poisoning

To Free and Correct the Blood a Uric-O Treatment is Advised.

There is great danger in those sharp, shooting pains through the chest around the region of the heart. It means that poisonous uric and rheumatic acid are there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings, they are the danger signals Nature flashes to you for help. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will over-come you.

The only true way to cure Rheumatism is to get at it from the inside with Uric-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Clears out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed and neutralizes the acid within the blood.

Your physician will admit that this is the only true way to cure Rheumatism permanently, and should know that Uric-O is the one remedy that will do it successfully and permanently. Uric-O is a liquid taken internally, 3 times daily and does not contain a drop of alcohol, opium or other dangerous poisons. It is good for Rheumatism in any form. Sciatica, Muscular, Inflamatory and Articular Rheumatism all yield readily to Uric-O. Noyes Drug Store is the home of Uric-O in Norway and if you call on them, they can tell you of many wonderful cures that Uric-O has made right here in your own town. They sell it for 75c and $1.00 the bottle or you can obtain a trial bottle free by writing to the makers of Uric-O, the Smith Drug Co., Syracuse, N. Y.

Children's Night.

Saturday night, Dec. 8th, was Children's night in the Odd Fellows lodge, and though the night was bitter cold a very large number was present. After a bountiful supper a short drama was given which, considering that all were between the ages of 12 and 16, was very nicely rendered. Celia Millett as "Our awful aunt" and "Pip" Manning as a young negro servant brought down the house. Rhoda Millett as matron, Alice Ray and Annie York as fashionable young ladies, Bertie Moreton and Hersey Saunders as young men in society, Hugh Bethel, George Holt and Monty Grover as policemen each acted their parts well. Songs were sung at the close by the Misses Millett, York and Saunders. All voted the occasion as one of the best.

Winnie Knight is improving, though not yet able to go out doors.

John Kilgore and wife are visiting his brother, Willis H. Kilgore.

John Willis is to work at Tuskahola this winter and will board at Leslie Hobson's.

Mr. and Mrs. C. A. Garcelon came out from Lovell, Sunday, and stayed over night at Alphonzo Charles, on their way to Ex-Governor Garcelon's funeral.

The Ladies Circle will meet at the vestry next Tuesday the 18th, afternoon and evening. The supper which is from six to seven is in charge of young men, George Holt with his assistants. In the evening Mary Dresser and Mary Manning, with their assistants, give an entertainment.

Governor Cobb has nominated Associate Justice Lucilius A. Emery of Ellsworth as Judge of the Supreme Judicial Court to fill the vacancy caused by the death of Chief Justice Andrew P. Wiswell.

Brown Tailed Moth Nests on Apple Trees.

The dreaded moth nests have been found on apple trees in Paris. They were picked from trees in the Jackson orchards on High street. To make sure the nests were sent to Prof. Hitchins of Waterville, who pronounced them genuine.

These nests were taken from Fred Jackson's orchard, which is a mile from the railroad, and several nests were taken from Bert Jackson's orchard, near Jackson's Crossing.

The brown tails prefer apple trees, and you should examine your orchards carefully, pick and burn the nests. Each owner must do this. Don't depend on town or State authorities to do this—as they will not do it.

Make careful examination of your orchards and wood lots, pick and destroy the nests. See to it that none are allowed to remain on your shade trees. Now, is the time to do it.

BRYANT'S POND.

Housewives and heads of families will be interested to know that the wave of general prosperity has struck the canned goods industry and jumped the price of nearly all kinds of canned fruits and vegetables, about five cents per can. The packers claim that the increase in price is caused by the short corn crop in the states where canning factories are located, and that peas, string beans and tomatoes also cost more money this past season, while the strawberry crop was the scarcest for years and raspberries were not very plenty. Another probable potent reason for the advance in price is undoubtedly the fact that the packers need the money.

It may be an off year for moose but the fox hunters report good success.

$16,000 Fire in Business Section.

Sunday night, the Cross block occupied by the general store of G. M. Forbush, was practically ruined, and the one-story building next to it, occupied by E. H. Young and E. E. Randall was badly gutted.

H. C. Rowe was passing the Cross block at 11 p. m., when he noticed smoke and saw a suspicious flickering light within. He investigated and discovered the building to be on fire. He gave the alarm by ringing the fire bell. The fire had got a good start. It started in the basement of the building, near the furnace.

The store of R. E. L. Farwell is immediately back of the building, only a few feet from it; and the building occupied by E. H. Young on the side next to the burned building, and on the other side by E. L. Randall as a shoe store, was connected at the one corner with the Cross store and almost a part of it.

The fire was thought to be out and the firemen went home, leaving only a guard, when the fire broke out anew in the Young block. The men were at work, handling the goods as fast as possible, when suddenly there was an explosion.

Major A. M. True was burned about the face and arms, his condition being so serious that he was taken to the Maine General hospital in Portland, the physician fearing he might lose his hand. Frank Robinson, who was helping Major True, was seriously burned about the face and hands, his greatest danger being to his eyes. It is believed however, that he will come out all right. William Poole was severely burned about the face and arms. Thomas Larue, a clerk, was knocked flat and Harry King, who was just behind Larue, made a circus vault and slid out of the door, going completely over Larue. King's hair was scorched but otherwise he was uninjured.

The fire was under control at 1 a. m. The Cross building is totally ruined. The Young building can be repaired, the greater part of the side walls and the whole of the back being still standing. The entire stock of goods in the Forbush store was destroyed. E. H. Young has removed his harness store to the brick block, into the store formerly occupied by Miss S. L. Hall as a drug store. In the Cross building was the Bethel Lodge, F. and M., No. 97. All the furnishings were destroyed. The lodge was insured. The charter and the old records were saved.

Although it was 12 below zero the night was still and the fire proved conclusively the efficiency of Bethel's water system. Never for an instant was there any diminution of the pressure, four streams being kept constantly at work.

The loss on the Cross building and the E. H. Young store is $4,000; well insured; E. H. Young's goods. $2,000, well insured; stock and goods of C. H. Forbush, $8,000, $5,000 insurance; E. E. Randall, $2,000.

He made a grab and caught something fastened to her belt, which he tore away with a vicious pull. The young woman grasped the man by the arm, and he dropped the article he had torn from the belt and was evidently about to make another effort to get the bag, when down the road two men were seen approaching. You Should Have a Copy.

Yes, every sportsman should have a copy and keep it in his library as a book of reference. It tells all about the best fishing and hunting sections of Maine reached by the Maine Central and Sandy River railroads.

The booklet compiled and arranged by Harrie B. Coe was printed entire, including the cover, at the Maine Woods office at Phillips, Maine, and is beautifully illustrated throughout by many half tone cuts of the various places of interest along the routes of these roads. The cover is especially attractive, being printed in four colors, with the design of a typical Maine guide and a display of flies such as lure the speckled beauties and gamy salmon from their favorite haunts.

The book is copyrighted by F. E. Boothby, general passenger agent of the Maine Central railroad, Portland, Maine, and a copy of this dainty, interesting and instructive guide book, with a complete map of the sections where fish and game abound, may be had by sending 15c to Mr. Boothby.

The good town of Harrison, where the Pomological meeting was held, really has a right to put on something of a claim for fruit, when it is remembered that not less than 15,000 barrels of prize apples were shipped from the little station over the little road a year ago, and lots of apples raised in Harrison sought a market over other transportation lines. We opinion that it isn't every town in the State that can beat Harrison's record in this regard.

Wm. G. Millett.

William Gseenleaf Millett died at his home at West Minot, Wednesday at 4.15 p. m. The cause of death was general paresis, he having been confined to his bed only five days. He was born in the town of Otisfield on April 8, 1832, and was the son of Edmund C. and Sally G. Milleit. He was twice married. His first wife was Eliza Jane Merrill, and from this union he had one son, Charles R. Millett, who has been associated with him in farming, dairying and wood business. After the death of his first wife he married Sarah B. Merrill, daughter of Lorenzo and Hope Merrill. From this marriage one daughter was born, Jennie E., who is now the wife of Wm. H. Walker of Saco.

He leaves five sisters, Mrs. Samuel G. Spurr of Otisfield, Mrs. Emma F. Brennon of Haverhill, Mass., Mrs. Almeda F. Burrows, Mrs. Mary E. Carr and Ella J. Millett of West Somerville, Mass. He was a member of the Baptist church and of Tyrian lodge of Masons at Mechanic Falls.

Edwin Berry.

Edwin Berry of Bridgton, a native of Denmark and a son of the late Moses Berry, shortly after noon, Monday, was found dead in bed, at his rooms in the rear of the J. H. Caswell jewelry store. The body was still warm when found, and it is the opinion of the physicians that he had been dead not over a couple of hours,

Mr. Berry, who never married, has been living in Bridgton for over 40 years, a greater part of the time being an employee of the woolen mills. Of late years he has watched nights at the Upper Pondicherry, but this winter he has been doing only substitute work, his health not being of the best. He leaves two sisters living in Sweden, and three brothers.

Bridgton Academy Centennial.

Bridgton Academy, which will celebrate its centennial in 1908, hopes to observe the anniversary by erecting a $50,000 building and by obtaining an endowment fund of $100,000. The old academy deserves well its funds and has made a splendid record. Among its graduates have been five governors, including John A. Andrew, the war governor of Massachusetts, and seven congressmen. Explorer Peary also prepared for college there.

A number of papers are advocating, perhaps facetiously, a change of the Thursday holidays, making them to come on Saturday. For some reasons this might prove a convenience, and in course of time it might be preferred. Probably the school children would like a Friday holiday, rather than one on the day of no session.

A New Year's ball will be held at North Lovell, Dec. 31st, under the auspices of Kezar Lake Grange, No. 440. Music by Packard's orchestra. Floor director, H. B. McKeen; aids, Will Allen, F. L. Harriman and W. S. Butters. A baked bean supper will be served.

Caught an Ermine.

James Walker, who is working for Edwin Fuller during his absence in the Rangeley region, caught an ermine in a mink trap. The ermine is an inhabitant of Europe and Northern America but is somewhat rare in this section. In winter its fur is of snowy whiteness, in summer the upper part of its body is brown and the under part of a sulphur yellow. The tip of the tail is of the most intense black throughout the year. The ermine resembles the weasel in size, shape and habits and it is one of the most valuable of fur bearing animals. Although of small size its skin brings from eight to fifteen dollars.

Rents are very scarce in this village and it seems to the writer as though a half dozen houses built to accommodate one family and rent at about six or seven dollars per month would be a good paying investment.

The new fifteen horse power electric motor for the basket factory arrived on Thursday of last week and has been placed in position. Everything is nearly ready and soon the busy hum of the machinery will be heard.

The outlet of Lake Thompson is frozen from the dam to the sand bar, and the skaters were enjoying their opportunity, Sunday. Several flocks of ducks are taking their final swim in the lake, as a few more cold nights will close it for the winter.

Richard Pye informed some friends in Portland that he had a mineral spring and would send them some very pure water to drink with their Thanksgiving dinner. The water was sent but upon analysis was found to be nothing but ordinary water from the house tank. Dick's solicitude for his friends was commendable, but his eagerness to please overshadowed his judgment.

A couple who were nearly eighty years of age were recently married in the town of Barre, Vermont. The editor of the local paper headed his account of the event "A Romantic Affair." After the edition was printed and the papers mailed, the editor happened to see his account of the wedding. He quickly packed his grip and quietly left town for a visit to mother down on the farm, as the typesetter had blundered and made it read "A Rheumatic Affair."

Francis Holden is one of the smart old men of this town. Although nearly 93 years of age, he enjoys his religion as well as any other person. He is perfectly regular in his habits, eats three times a day, takes lots of sleep, tends the fire but does not like cold weather. During the summer and up to November, he usually visits the "corner" twice a day to get the mail, but on arrival of the first snow storm he dens up for the winter.
